## CALL FOR PAPERS

The 6<sup>th</sup> IEEE International Conference on Consumer Electronics – Berlin (“ICCE-Berlin”) will be held from the 4<sup>th</sup> to 7<sup>th</sup> September 2016 in Berlin in parallel with the IFA, the leading trade show for Consumer Electronics and Home Appliances. The ICCE-Berlin is the European sister conference of the IEEE Consumer Electronics Society’s flagship conference “ICCE” held annually in Las Vegas in conjunction with the Consumer Electronics Show. Now in its 6th edition, ICCE-Berlin is well established and fully integrated in the IFA and continuously growing. This year again the IEEE CE Society is joining forces with other IEEE societies to broaden and strengthen the CE subjects and scope of the conference: the EMC Society, the Product Safety Engineering Society, the Reliability Society, and the Society of Social Implications of Technology.

Berlin, a birthplace of consumer electronics, is one of Europe’s most exciting cultural centres and a vibrant city. The conference will again bring together researchers and engineers from industry, research centres, and academia to exchange information and results of recent work on systems, circuits, technologies, processes, and applications. It will provide an excellent forum for the researchers, system developers, and service providers to share their ideas, designs and experiences in such a proper environment as the IFA. We have some of the world’s leading experts giving keynote speeches, and also high quality tutorials as well as panel discussions. There will be a doctoral workshop as well as a seminar and a social event for Young Professionals.

IEEE 2016 ICCE-Berlin is asking you for submissions of technical papers for oral and poster presentations. Prospective authors are invited to submit a 2-page abstract in any of the technical areas below as well as in other areas related to **consumer electronics**. The final paper may extend up to 5 pages. All accepted and presented (!) papers will be submitted to IEEE Xplore for publishing. Additionally, and new for 2016, we also encourage submission of abstracts for technical presentations within the **industry track**, for which no associated academic paper is required or published.

- Audio and Video Technology**
- Entertainment and Games**
- Car Electronics**
- Consumer Networks**
- RF & Wireless**

- Human-Device Interaction**
- Sports, Wellness and Home Healthcare**
- Smart Energy**
- Product Safety Engineering**
- Sustainable Electronics**

The conference committee also welcomes contributions related to consumer electronics from the associated IEEE societies of electro-magnetic compatibility, life sciences, product safety engineering, reliability, and social implications of technology.

### President IEEE CE Society

*Sharon Peng, US*

### VDE Chair

*Ralf Schäfer, DE*

### IEEE CE Society VP of Conferences

*Stephen Dukes, US*

### Liaison to CE Society

*Steve Diamond, US*

### Leaders of the joining IEEE societies:

*Bob Scully, Electro  
Magnetic Compatibility Society*

*Mike Maynard, Product Safety Engineering Society*

*Christian Hansen, Reliability Society*

*Dona Hudson, Life Sciences Technical Community*

*Greg Adamson, Society on Social Implications of Technology*

### Important Dates

- Abstract Submission Deadline: **10 March 2016**
- Notification of Acceptance: **15 April 2016**
- Final Paper Submission Deadline: **15 May 2016**

**Paper Submission** at the ICCE-Berlin website [www.icce-berlin.org](http://www.icce-berlin.org)

Within the above subject areas or domains, the IEEE 2016 ICCE-Berlin especially requests contributions on the following subjects:

### Audio and Video Technology

- DVBT and HDTV
- Audio Image and Video Processing
- Audio-Visual Recording and Storage
- Display Systems
- HD, UHD and 3D Video
- Smartphone
- Universal Touch Pad Application

### Entertainment and Games

- Silver Games
- Video Handheld
- IPTV-Game System
- Networked AV/Multimedia

### Car Electronics

- Automotive Computing
- AV & In Car Networking
- Driver Assistance
- Automotive Entertainment

### Consumer Networks

- Smart Home
- Home Networking, Home Gateways
- Emerging Network Architectures
- Networking Standards
- Security and Privacy
- Data in the Cloud

### RF & Wireless

- Antennas
- Modulation and Coding
- Software Radio
- Spectrum Usage
- Channel Equalization, MiMo, Diversity
- Mobile Reception

### Human-Device Interaction

- User Centered Design
- Usability/Accessibility
- Haptics

### Sports, Wellness and Home Healthcare

- Ambient Assisted Living
- Support systems for people with special demands
- Vital Parameter Monitoring
- Personal Robotics

### Smart Energy

- Energy Harvesting and Efficiency
- Energy Generation, Storage and Management
- Smart Energy Devices and Apps
- Smart Grid & CE

### Product Safety Engineering

### Sustainable Electronics
